PROJECTS

URBON SPOT Code Repository | Live Site *JavaScript, React.js, CSS, Firebase*
Full-stack parking rental web application for listing and booking parking spaces.

- Implemented Firebase Authentication, supporting 50+ test users with secure login and session handling.
- Integrated Razorpay payment gateway with transaction validation and error handling.
- Built dynamic React.js components with Firestore real-time database integration.

TOKYO TOURISM Code Repository | Live Site *HTML, CSS, JavaScript*
Responsive tourism website showcasing city attractions.

- Developed a 4-page responsive website using mobile-first design principles.
- Designed layouts using CSS Grid and Flexbox for cross-device compatibility.
- Managed version control using Git with organized commit history.

EXPERIENCE

Open Source Contributor Certificate Girlscript Summer of Code 2025 (Remote)

- Contributed to 4+ open-source repositories with 8+ merged pull requests.
- Resolved UI and responsiveness issues improving usability.
- Improved documentation using Markdown to support new contributors.
